#### DATENSATZ

- Regional Cost of Living Analysis (von 2000 2023)
- https://www.kaggle.com/datasets/heidarmirhajisadati/regional-cost-of-living-analysis
- https://www.kaggle.com/code/danielbraunstein/daniel-braunstein-fhwn-adi-ddi

#### PROBLEM

- Finanzkrise durch Corona und Ukraine-Konflikt
- Zinssteigerung der Banken
- Erhöhung der Lebenskosten
- Insolvenzen, Arbeitslosigkeit,...

- Wie verhalten sich Einnahmen und Ausgabe?
- Wie wird sich dies in Zukunft verhalten?
- Gibt es Ähnlichkeiten?
- Was kann aus den Korrelationen abgelesen werden?

Diagramm AMI & CoL

```
